NATIONAL WEBINAR ON ECOSYSTEM RESTORATION (5TH AND 6TH JUNE 2021)

**Conceptualization of National Webinar by
ECO CLUB, SCIENCE CLUB & IQAC**
Being organized by Department of
Biotechnology, Botany, Chemistry, Computer Science, Geology,
Mathematics, Microbiology, Physics & Zoology

Ecosystem support all life on Earth. The healthier our ecosystem is the healthier the planet and its living beings. The United Nation Decade on Ecosystem Restoration aims to prevent, halt and reverse the degradation of ecosystem on every continent and in every ocean. It can help to end poverty, combat climate change and prevent a mass extinction of life.

The World Environment Day and weeks are the occasions to educate the public on the issues of Ecosystem of Earth, to mobilize the academic, scientific and political will and resources to address Global Environmental Problems, and to celebrate and reinforce achievements of humanity.

Our college has undertaken to celebrate UN Decade on Ecosystem Restoration 2021 – 2030 with following aims and objectives.

1. To understand the problem and present scenario of Ecosystem.
2. To explore scientific achievements for restoration of Ecosystem.
3. To understand impact analysis of Ecosystem Degradation.
4. To search Scope of Study and research of Ecosystem analysis and conservation.

Certificates will be provided to the registered participant who will be present on both the days
