

World Soil Day (2020-21)

On the occasion of World Soil Day, December 5, a one-day workshop on soil testing was organized by the Government V.Y. T. PG Auto College, Durg Chemistry Department to encourage the trend of science among students. Government soil testing laboratory Mr. Abhishek Kumar Aadil of Durg, Rural Agriculture Extension Officer and Laboratory Assistant Mr. Sanjeev Jena conducted experiments on the important facts regarding soil testing. Professors and students attended this workshop related to practical chemistry and took advantage. In view of the increasing pollution in the soil and the reduction in quality, it is necessary that the students are aware of it and can work for good crop and healthy soil by doing soil testing in less means. Mr. Abhishek Kumar Aadil gave suggestions to increase soil fertility. Many questions related to experiments conducted during the workshop were asked by the students, which were resolved by subject-experts.
