

VISIT TO CENTRAL INSTITUTE OF PLASTIC ENGINEERING AND TECHNOLOGY

The student of BSc 3rd year industrial chemistry along with faculty members visited Central Institute of plastics Engineering and Technology on 29th December 2017 Raipur. Initially the students were briefed by director of CIPET about the type of plastic and various moulding techniques and recycling of waste plastic material by PPT presentation .After a brief session of theoretical knowledge students visited various workshop and CNC lab where they observed how to make mould by CNC machine and process of manufacturing plastic cup, glasses, plate bottle, bottle leads, tank and bucket. The student also asked questions to establish small scale plastic industry.
