

DEPARTMENT OF MICROBIOLOGY GOVT. V.Y.T. PG AUTONOMOUS COLLEGE, DURG

Bio Gas and Biofertilizer production Plant SRT Funda, Patan

Industrial Visit (01.03.2018)

An industrial visit was planned for PG students of Microbiology to Biogas and Biofertilizer plant at Funda village, Patan, Durg. The plant is running by SRT Agro group, Patan by Mr. Shirish Taunk and brothers. The area consists of a Cow farm with around 200 cows of Gir breed, Mechanical milking system and built in cow dung collection tanks connected with biogas production unit. The biofertilizer unit comprised with biomass production lab, fermentation unit and packaging unit.

Students observed the production of Mycorrhiza, Rhizobium biofertilizer as well as other bacterial bio nutritional compounds used for productivity of plants.
