

DEPARTMENT OF MICROBIOLOGY

GOVT. V.Y.T. PG AUTONOMOUS COLLEGE, DURG

Subject Popularization Program

Govt. H.S. School Anjora Dhaba, Durg

(Extension Activity) (30.01.2017)

The faculty members and PG students of department of Microbiology visited Govt. H.S. School Anjora Dhaba (Durg) on 30.01.2017 under the banner of Microbiology Association. The programme was volunteered by 36 students of M.Sc. (Microbiology). A presentation focused on scope and importance of Microbiology as a subject of higher education was demonstrated.

The PG students prepared posters on prevailing infectious diseases, causal organisms and prevention measures for demonstration and easy understanding. All the posters were then donated to the school authority for future use.

The blood samples of school students were taken with the help of paramedical staff and their blood groups were identified. The blood group cards were given to respective students with some tips on common and un common types of blood groups and required precautions.

At the end, the Principal of the school extend the vote of thanks and congratulate the student volunteers for their activity.

All together 164 high school students benefitted. The program was preliminarily aimed to provide acquaintance with the Microbiology as a subject to the students and to extend the knowledge to society.

The school students eagerly asked questions about the future prospects.

The activity also delivered hands on experience to PG students for laboratory skills.
