

BHILAI STEEL PLANT VISIT (08 MARCH 2017)

On 8 March 2017 students of MSc Physics students visited to the most important place of our city, Bhilai Steel Plant. This plant has made the city of Bhilai comes on the map of not only India but also the world. One of the biggest and 12 times winners of the best steel plant in the country was visited for the purpose to understand the functionality, management and of course the scientific aspect of it. The technical, furnace and chemical factory was closely visited by the students. We learn about the steel in chemistry and physics but here get to see both along with it's manufacturing more adherently. Students took notes of all the important things explained in detail by our guide provided by the plant itself. This was the most satisfying visit to any place ever as it made us realize the difference between the theoretical and practical aspects in one go.
