# ➤ THE NATIONAL CADET CORPS (NCC) IN NATION BUILDING

## NCC Footprint

The National Cadet Corps (NCC), the largest uniformed volunteer organization in the world, is committed to the business of youth empowerment and is ideally suited to help the nation realize its demographic dividend, thereby making a significant contribution to nation-building. The military orientation of its training curriculum also ensures handsome dividends in the security domain. From its modest beginnings on 15th July 1948 by an Act of Parliament, and with an initial subscriber base of 20,000 cadets, the NCC today boasts of authorized strength of 14 lakh cadets. It has a pan-India presence that includes 16,288 institutions in 703 out of 716 districts of the country. The 8000-plus institutions which are wait-listed bear testimony to its popularity. The only untouched districts lie in extreme remote and threatened areas, or in recently carved out districts of Manipur and Telangana. What is heartening is that most of the NCC's subscription is from government institutions and economically modest households (i.e. nearly 80 percent of the cadet population). The NCC takes pride in helping these disadvantaged sections of society realize their aspirations, thereby contributing towards both equity and development. National Cadet Corps in the college plays a credible role in shaping the character of students by instilling the values of patriotism, service, discipline and hard work. 37 CG NCC BN Durg of NCC functioning in the college which authorized total strength is 158 including SD and SW cadets. Cadets enrolled were given institutional training and can participate in adventure activities, community development programmers, various national level and annual training camps; youth exchange programmers, sports and cultural activities etc.
