

7.1.7 - The Institution has a disabled-friendly and barrier-free environment

Our college is dedicated to creating an inclusive and supportive environment for differently-abled students by providing various facilities tailored to their needs. The campus features barrier-free infrastructure, including ramps, elevators, and wheelchair-accessible washrooms, to ensure smooth mobility. Assistive technology, such as computers with screen readers and magnification software, is available in the library and computer labs. A special help desk addresses their specific needs, and personalized assistance is offered for accessing study materials and resources. Teachers adopt inclusive teaching practices, fostering a supportive learning environment where every student feels valued. Flexible examination procedures and additional time are provided to accommodate their requirements. The college facilitates access to government scholarships and financial aid, helping to reduce financial barriers. Differently-abled students are also encouraged to participate in cultural, sports, and extracurricular activities, promoting their overall development and social engagement. Through these initiatives, the college ensures that differently-abled students have equal opportunities for education and holistic growth, continually striving to improve and expand its facilities for a fulfilling academic experience.
